**VIA E-MAIL (mac@amarinecorp.com)**

Mr. Michael MacDonald, Vice President – Hawaii  
American Marine Corporation  
65 North Nimitz Highway, Pier 14  
Honolulu, HI 96817

**Letter of Commendation**

**Contract No. 72846**

**Job No. B08CO79A**

**Maunalua Bay Boat Ramp Maintenance Dredging and Facility Improvements**

**Honolulu, Oahu, Hawaii**

This letter is to express our heartfelt appreciation for the commendable performance of American Marine Corporation (AMC) staff, management, and subcontractors in the successful and quality completion of the subject project.

This was a very complex project requiring sophisticated planning and coordination between many facility users and stakeholder groups, all while keeping the Maunalua Bay Boat Ramp operational during construction.

This project not only resolved the significant shoaling conditions at the entrance channel and boat ramp through dredging, but the landside facility improvements also expanded the facility parking areas, canoe storage area, repaired and improved extremely deteriorated sea walls, and replenished the adjacent eroded shoreline beach areas with reused dredged sand. This project was truly a win for the State and community.

Your staff was critical in keeping all parties involved aware of operations and scheduling, making changes as needed to keep the project moving forward without interruptions, and completing the project within budget and two months ahead of schedule.

We look forward to many future quality projects with AMC and will continue to value the exemplary work done at Maunalua Bay Boat Ramp.

Sincerely,

Meghan L. Statts  
Administrator
